Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner suggested to Applicant to include limitations of having 1) the computer determining differences between the first and second series of steps (or predetermined and actual series of steps) and 2) calculating or determining excess expenses associated with performing the/said medical functions. Suggested parallel modifications be added to claims 65, 69, and 76. Examiner explained that Claims 67 and 77 had additional issues which prevented claims from being ready for allowance at this time. No agreement between Examiner and Applicant was reached.
